

## About Us

Our number one goal and main objective is to provide training and or psycho-therapy services to you that will insure the success of your daily functioning as an individual or as a business. We realize that your business and personal welfare is important and that your goal is to live a fully functioning life. It is our belief that our extensive knowledge in the mental health field will help us to assist you in accomplishing this goal. We provide our clients with top-notch clinical consultation services anywhere within North and South Carolina.

## Psychotherapy :

Our staff at Oasis Clinical Care Management is trained to provide several type of therapy training which includes but is not limited to: DBT - Dialectical Behavioral Therapy and Grief, Loss & Bereavement Therapy. Our firm has over seven years of experience in the field of Psychotherapy and consultation; our business is located outside of the Charlotte North Carolina area (Union Co.) and is privately owned and operated.

By providing professional services encompassed with commitment and respect; our experience will allow us to assist adolescents and adults to become independent and continue to live in their natural environment. We strive to provide a consistent level of care and continuity to all of our service providers.

Our mission is to elevate, enhance and maximize the lives of adolescents and adults living with a mental illness to allow them to succeed in their community, home and/or school environment. With our diversified background and extensive training, we are able to reach adolescents and adults who due to their disabilities, in the past others may have been unable to help. Recognizing the powerful influence of the family, we have programs that incorporate family involvement into the adolescent and adult's treatment sessions when possible.

## Consultation:

You can rest assure that you have come to the right place for your consultation needs. It is our priority to ensure that you receive an accurate and professional consultation service and we believe that your feedback and our work allows this to take place. We also aim to exceed all expectations by obtaining the appropriate level of accreditation in order to maintain your position as a service provider. We know that relationships are essentially important. Because of that, we are confident that together we can meet the growing demands of the mental health reform.
